# Presenting fresh new stain finishes.

## Inspired by nature.

Introducing our latest cabinet finishes—a testament to our timeless craftsmanship and enduring style. Adding to our collection of Maple finishes, Almond is a neutral-tone, medium natural wood stain that is a modern twist on the beloved classics. The beautiful color variation in the fine, smooth, even texture of the wood adds elegant dimension to modern home designs. Conversely, known for its varying hues and textures, our lineup of Cherry finishes is expanding with the addition of Clove. Cherry Clove is a neutral-tone rich, medium stain that adds charm and dimension to any space. Both finishes beautifully complement and pair well with many of our tried-and-true Maple, Cherry, Painted and Duraform finishes.

### WARM BROWNS

Cabinets serve as the focal point in any kitchen, and warm brown cabinets, being both timeless and currently fashionable, hold a distinct allure. They exhibit well and offer a neutral backdrop, making warm brown a versatile choice that can be styled to achieve an inviting modern, country, chic, or rustic look depending on the accompanying elements.

# Unveiling Belcourt.

## Tailored Minimalism

Belcourt, a stylish and versatile choice for homeowners seeking a modern yet approachable design for their kitchen or other living spaces. Our take on slim shaker, these cabinets are a chic rendition of classic shaker design. Known for clean lines and a streamlined slender profile. The new Belcourt collection's minimalist appearance is simple, practical, and has enduring appeal.

# Modern

Simple, elegant, and on-trend

The modern cabinetry's clean and sleek lines effortlessly radiate chic sophistication. This minimalist design serves as an ideal foundation to explore and embrace urban aesthetics. Whether you opt to incorporate industrial elements or embrace a more modern farmhouse vibe, our Shaker-style door front options introduce simple, craftsman-like details to your modern home, cultivating a warm and inviting ambiance.

Barren Painted Harbor

## Simplicity Is Key

Modern design is characterized by limited embellishments. Favoring open spaces, sharp angles, and exudes strong architectural energy.

### Bold Finishes

Opting for painted cabinetry in whites and grays can be a refreshing and airy choice. Adding a second color—like mist or sage—is a modern trend.

### Natural Wood Tones

Natural wood can add dimension to a design, and is often a key element as an accent or the lead.

### Crisp, Clean Lines

The uncomplicated, uncluttered aesthetic extends to every element of the cabinetry. A flat-front drawer, called a slab drawer, is a minimalistic design style.

### Unadorned is Chic

Allow the natural allure of the elements to take center stage. Accessorize strategically to highlight the details.

### Architectural Impact

Stacked cabinets create a strong architectural presence, and crown moldings are typically simpler, or omitted altogether.

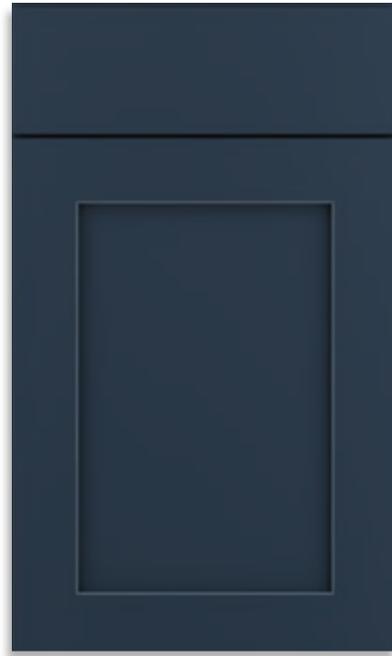

### Showcase Specialty Pieces

For a modern kitchen, incorporate glass doors or open shelves. Cabinet doors with mullioned frames can introduce a charming touch to a modern farmhouse kitchen.

# Transitional

Unlock the possibilities.

A blend of traditional and modern design styles, you can have it all in a transitional space. Perfect for those looking to elevate their homes to feel classic yet current. Transitional style lets you, be you. Can't decide on one cabinet finish? Choose more than one for a two or tri-tone design. Play with color and decorative accessories to curate the dwelling of your dreams.

## You Can Have It All

Transitional design is the balanced blend that seamlessly adapts, harmonizes, and pulls together pieces from various styles. Allowing you to curate a distinctive and personalized look that is uniquely yours.

### Tailored Features

Intricate woodworking such as beveling, mitered corners, and routing are subtle yet unmistakable.

### Understated and Tasteful

The polished appearance of a recessed panel creates subtle visual interest and versatility when it comes to design.

### Quintessential Sightlines

If you want a modern vibe, consider slab drawers for their clean lines. For a more classic aesthetic, consider furniture-style decorative accessories on an island or furniture feet on cabinetry.

### Finish Pairings

Pairing wood stains and paint hues can define zones within a space. Two tone designs can also be used to create delicate drama.

### Accentuate Your Look

Rangehoods in styles spanning from simple tapered to graceful valance designs can accentuate an aesthetic.

### Decor

Transitional design invites a mix of room accents ranging from vibrant dishware to cherished mementos. Display options like open shelving or glass doors provide a platform to showcase these items.

# Classic

Create a refined and elegant space.

Characterized by embellishments, layering and precise detailing, classic cabinetry emphasizes the aesthetic of artisan woodworking. Classic style can transform a space into a warm and intimate setting, boosting the look of your home. It feels fine, sophisticated, and beautifully compliments antique furniture and accessories. With more elegant enhancements, it has the power to evoke a mood of dignified refinement or an ambiance of distinguished luxury.

Clayton Cherry Amber and Painted Sage

# Timeless

Classic style exudes refined extravagance. It starts with intricately sculpted cabinet doors and drawer fronts. Continuing with a carefully selected palette of accents to complete the look.

### Personal Touches

Showcase your cherished keepsakes in glass cabinets or on open shelves. Infusing character into the classic aesthetic.

### Establishing Your Aesthetic

To create a classic mood, incorporate furniture-like additions. Add decorative legs to islands and feet to base cabinets.

### Ornamental Accents

Incorporating decorative crown molding and corbels is essential. The addition of multiple layers of complementary crown molding gives a space a feeling of grandeur.

### Stains & Paints

Natural wood stains are a prime choice for classic design, yet painted finishes are an attractive alternative.

### An Embellished Silhouette

Waterfall edges, beaded edges, beveling, miters, and grooving are trademarks of a classic styled door.

### Custom-Looks

A custom-look built-in furniture piece can be the focal point of a luxurious space. For instance, a grand wine bar can be curated with a wine rack cabinet, stem glass holder, and glass doors for display.

Bandera Maple Almond and Painted Harbor

# Elderidge

# Details make the difference

## 10 tips to accentuate your design.

From modifications to decorative accents, 1951 Cabinetry offers incredible value allowing you to design the home of your dreams. Personalize your kitchen for a custom feel, unique touches add convenience and beauty.

**01 Turn up the color**  
Multi-tonal spaces are gaining popularity, offering opportunities to blend various colors or finishes for a distinctive and personalized appearance.

**06 Show off your style**  
Glass door inserts let you display your favorite treasures and add a light airiness to the room.

**02 Create your niche**  
A drawer base cabinet and staggered upper cabinet depths form an attractive nook with lots of storage built in.

**07 High priority storage**  
An increased-depth cabinet over the fridge means more accessible space and provides a built in look.

**03 Spotlight the range**  
A stylish range hood completes your design—the centerpiece of a great kitchen.

**08 Stylize every surface**  
Use decorative doors to finish off a run of cabinets with a furniture look.

**04 Crowning glory**  
Crown molding is the detail that transforms blank space to finished perfection.

**09 Just-right light**  
With light rail molding, the under-cabinet task lighting you love stays out of sight.

**05 Beautifully furnished**  
Decorative legs on islands and other furniture-like details are elegant designer elements.

**10 Hardware magic**  
Like jewelry for your cabinets, the choice of hardware can take a design in many directions.

- CushionClose® Hinges
- Full Depth Shelves
- Furniture Ends Construction
- Plywood Ends Construction
- All Plywood Construction
- Matching Interior

## Construction options add lasting value

### CushionClose®

No more noisy slamming doors, drawers and roll-outs. Cushion close technology provides smooth and quiet operation.

### All Plywood Construction

This upgraded construction for cabinet sides, shelves, cabinet backs, toe kicks and hanging rails is the ultimate choice in durability and stability.

### Full Extension Glides

Now it's easy to reach all the way to the back of a 21-inch drawer. Glides handle the weight of heavy loads and slide with ease.

### Furniture End Construction

For cabinets with exposed ends, this flush look uses 3/4" thick plywood with matching wood veneer to give cabinets the finished look of fine furniture.

**It's a delightful reality of nature: no two pieces of wood are precisely identical.**  
**It's crucial to comprehend what to anticipate.**  
**Even wood sourced from the same tree exhibits variations, adding to the beauty and individuality of exquisite cabinetry.**

### Natural Factors

The following characteristics are natural and are not considered defects:

- Naturally occurring color, grain, and texture differences
- Color deviations, even within the same section of wood
- Differences between open and closed-grain areas
- Visible mineral streaks

Just as wood naturally expands and contracts, so do door joints. Periodically, you may see hairline cracks in the finish surface at the joints. These are normal and do not affect the integrity of the door.

### Care & Cleaning

Your cabinetry is extremely resistant to stains and surface damage that can be caused by common household items. However, to further protect the original factory finish:

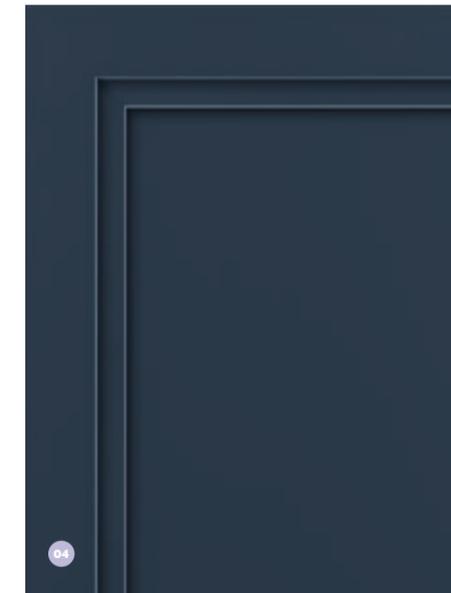

- Wipe up spills immediately using a clean cloth and mild soaps
- Dust your cabinets periodically using a soft, slightly dampened, lint-free cloth
- Read all cabinet care guidelines and cleaning product instructions carefully

### Environmental Factors

Cabinetry added at a later date may not match the original cabinets installed and samples may no longer have a true color representation. This may be due to:

- Exposure to sunlight, smoke, and chemicals
- Change in door samples or displays due to age

Because of environmental factors, 1951 Cabinetry is not responsible for texture differences or color and wood grain variations in materials used in your cabinets.

## The Materials

### 01 Cherry

Cherry is a closed-grain hardwood with varying textures, known for its warmth and distinctive curly figures and pin knots. Its natural color includes white, green, and gray, to a deep reddish-brown. As cherry wood ages over time, it begins to darken, bringing out all the unique qualities and grains.

### 02 Maple

Maple is an extremely hard wood with a fine, even texture. Color can be light to cream-colored. Its uniform straight grain may show wavy, bird's eye, or burl graining. Popular for its durability and luster.

### 03 Duraform

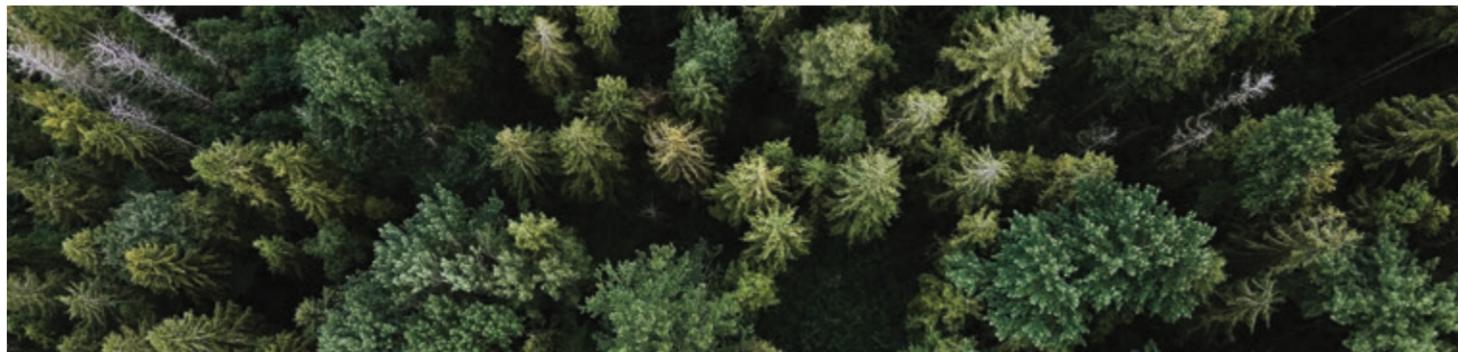

Duraform uses advanced manufacturing to bond foils and coatings to medium-density fiberboard, high-density fiberboard, and similar materials for exceptional stability, consistency, and durability.

### 04 Painted

Painted finishes combine hardwoods and engineered materials for stability, consistency, and durability, with minimal grain visibility. Joint lines may appear due to the wood's natural expansion and contraction.

### 05 Hardwood

Hardwoods include dense-structured maple, oak, birch, cherry, hickory, poplar, and ash. Color ranges from light blonde to dark reddish-brown. Variations of graining, color, and mineral streaks are natural.
